

Fired Up with Flipgrid

Flipgrid is a video discussion platform

<https://vimeo.com/247835637?from=outrio-embed>

What is Flipgrid?

Flipgrid

- Video discussion platform similar to the popular social media platform, Snapchat
- Assists students in developing their voice to communicate effectively
- Provides students a fun and creative avenue to develop their communication skills
- Provides educators a simple way to integrate “presentations” in their classroom

Creating a Topic

Section 1 of 6

Topic Details

Topic Title

Add a title for your topic to provide context.

Required. 35 characters max

Video Response Time

Adjust the maximum recording time allowed in this topic.

Response time of 15 seconds to 5 minutes

Topic Description/Question

Text can be up to 500 characters.

🔄 ↺ **B** *I* U 🔗 ✍️

Add your question or stimulus text for this topic.

0 / 500

Required. 500 characters max

Topic Display Date

This date is displayed on your topic and can be used to order your topics.

Response Moderation

If responses are moderated, the grid owner must approve responses before they are visible in the topic.

Cancel

Create Topic

How to Incorporate Flipgrid?

- **Introductions**
 - Great alternative for online or virtual class student introductions discussion board
 - What do you want to learn? What questions do you have on this topic?
- **Personal**
 - What each student learned about a topic?
 - How the material is relevant to them personally
- **Comparisons**
 - Compare approaches, applications of a concept
 - Discuss positive and negative of a topic
- **Current Events**
 - Report on an event or topic they research
 - Summarize or share opinion on a topic

Tips for Using Flipgrid

FLIPGRID

Privacy & Security Settings

Privacy & Security Settings

Flipgrid Support

8 days ago · Updated

Flipgrid makes sure educators have complete control over the security and privacy of their grids. There are a number of options to choose from within the [Educator Admin](#):

1. **Grid Code** - By default, the Grid Code associated with a Grid is private. Only those with the Grid Code will have access.
2. **Grid Password** - Add a Grid Password under Grid settings. Now, students need the Grid Code and the Grid Password for access. [Learn more here](#). Note - passwords cannot be added to Topics.
3. **Share Links** - Disable share links to Facebook, Twitter, and Google Classroom by editing the Grid settings.
4. **Moderate Videos** - Default all videos to hidden and only visible to the Grid owner by turning on the Moderation feature under your Topic settings. [Learn more here](#).
5. **Student Information** - First & last name are the only required fields; however, students can simply use their initials (or any letters) instead of their actual name. Only educators see the full last name.
6. **Canvas Integration** - Grids can be integrated within Canvas. Only students within that specific Canvas course can access the Grid. [Learn more here](#).

Have students that don't want their image on Flipgrid? Check out Flipgrid's tips for shy/quiet students.

Flipgrid Privacy Principles

FLIPGRID PRIVACY PRINCIPLES

Our mission of promoting student voice includes protecting student privacy and safety by giving teachers full control of how student information is shared.

We are COPPA and FERPA compliant

Flipgrid is fully compliant with these important laws so it's safe to use with students at school and individuals under 13.

All student content is private by default

Every grid is a private learning community. Teachers control what is shared on the grid and where the grid is shared.

We don't sell any user data

Flipgrid will never advertise to students and we will never sell or rent user data for any reason.

Flipgrid is ADA Compliant

We strive to provide our users a voice in their learning community no matter how they can participate. With features like auto-transcription and keyboard navigation, Flipgrid meets WCAG 2.0 level AA guidelines.

Teachers and schools own the content

Flipgrid does not own the content. Teachers have complete control over which videos are visible and are the only ones who can download or delete content.

Teachers control the conversation

Flipgrid provides additional security features with password restrictions, moderated videos, and other privacy settings. The teacher controls everything that happens on the grid.

We protect your information

We use security industry best practices and routinely monitor our systems to protect you.

We are transparent

Flipgrid is open about our policies & practices. If anything ever changes, we will immediately notify you.

Read our full [Privacy Policy](#), [Terms of Use](#), and [Children's Privacy Policy](#).

Flipgrid Pricing

Flipgrid discount annual licenses are available through **Larry Slezniow** for **\$40 each**

Flipgrid One

Free
for everyone

Thank You!

- Thank you for showing interest in Flipgrid.
 - One thing I have learned is technology presents some struggles and I always prepare myself for them mentally.
 - My students are often the best resource and love to help. They appreciate that I am willing to take risks to help them. They are then willing to help me in return. Do not try and impress them, show them how to work together.
